Career Summary

Full-Stack and AI-focused Software Engineer with hands-on experience building and shipping production systems from scratch. Founder of HireJourney, a live AI-powered career platform featuring an Interview Simulator, ATS scoring, resume optimization, and Chrome extension, used by job seekers across Nigeria and internationally. Experienced building with React, TypeScript, FastAPI, PostgreSQL, Redis, and LLM integrations. Comfortable owning the full stack, making product decisions, and moving fast in startup environments.

Core Competencies

Backend: Python (FastAPI, Django, Flask), Java (Spring Boot), Node.js.

Frontend: React, Next.js, Vite, TailwindCSS, TypeScript

Mobile: Flutter (Android & iOS)

AI / ML: LLM Integration, OpenRouter, TensorFlow, AssemblyAI, YAMNet

Cloud / DevOps: Docker, Firebase, Render, Fly.io, Vercel, Cloudflare.

Databases: PostgreSQL, MySQL, MongoDB, Redis (Upstash).

Testing & Security: JUnit, Pytest, Jest, JWT, OAuth2, Spring Security.

Tools: Git, Postman, Swagger, GitHub.

Professional Experience

Hirejourney - hirejourney.xyz

Lagos, Nigeria

Full-Stack Engineer & Founder.

Oct 2025 - Present

Built and shipped a full-stack AI-powered career platform solo from zero to live users across Nigeria and internationally.

- Built 40+ RESTful APIs with FastAPI covering auth, resume analysis, job tracking, cover letter generation, and interview simulation
- Integrated OpenRouter LLM API to power real-time AI features including job fit scoring, ATS analysis, and dynamic interview question generation tailored to specific job descriptions
- Implemented dual payment infrastructure with Pystack and Lemon Squeezy with automatic IP-based routing, enabling seamless checkout for both Nigerian and international users
- Built a voice-driven Interview Simulator using Web Speech API zero third-party cost, fully frontend, works natively on Chrome and Edge
- Shipped a Chrome Extension that pulls job descriptions directly from job boards and triggers AI analysis in one click
- Implemented Redis caching and token blacklisting via Upstash to manage session state and reduce latency
- Deployed backend on Fly.io and frontend on Vercel with full CI/CD pipeline.
- Built PDF generation and download pipelines using Browserless for resume and report exports
- Documented all APIs with Swagger/OpenAPI, maintaining detailed endpoint references for the full platform

Meerge Africa

Lagos, Nigeria (Remote)

Backend Developer

May 2025 - June 2025

Backend engineer responsible for building and scaling APIs for a logistics and payment platform supporting delivery agents and financial transactions.

- Built and maintained 15+ RESTful APIs for orders, payments, and KYC verification.
- Integrated Pystack API with custom failover logic enabled 99.9% transaction success rate.
- Reduced DB query latency by 30% using indexing and Redis caching.
- Designed OTP verification (email/SMS) with 100% delivery rate.
- Wrote automated tests (Pytest/Postman) and set up CI/CD to keep features stable while moving fast.

3rube

London, United Kingdom (Remote)

Mobile Developer Intern

February 2025 - April 2025

Worked on a cross-platform fintech mobile application focused on performance and usability.

- Improved image upload performance by 30%, reducing loading time and improving user experience.

- Fixed layout bugs and inconsistencies, improving UI compatibility across 95%+ of supported devices.
- Worked closely with the mobile engineering team in agile sprints to ship customer-facing features.
- Consumed and integrated backend APIs for user authentication, transactions, and profile management.

Semicolon Africa Software Engineer

Lagos, Nigeria

February 2024 - February 2025

Built backend systems and APIs for multiple web and mobile products in a collaborative engineering environment.

- Designed and implemented backend architectures for 4+ production applications.
- Led development sprints and code reviews improving code quality across teams.
- Built REST APIs powering web and mobile applications.
- Implemented automated testing pipelines improving system reliability.

Software Engineer – Independent Contracts

January 2023 – February 2024

Delivered end-to-end software solutions for international clients across lifestyle, e-commerce, and personal branding sectors, focusing on scalability, usability, and performance.

- Built PCS Loan, a production Flutter lending application enabling secure authentication, loan requests, and loan status tracking.
- Developed booking platforms for UK-based beauty professionals, increasing appointment conversions and contributing to ~40% revenue growth.
- Built a TreeLink-style creator portfolio platform generating 200+ monthly visits.
- Designed and deployed scalable backend APIs supporting mobile and web applications.

Selected Projects

CommsBridge – AI Assistive Mobile App - [GitHub](#)

AI-powered application designed to help hearing-impaired users understand conversations and detect environmental hazards.

- Implemented speech-to-text transcription, multilingual translation, and AI summarization.
- Improved audio processing pipeline achieving ~40% faster processing.

Tech-Stack: Java, Spring Boot, Flutter, Python, FastAPI, TensorFlow, Gemini, Cloudinary, MySQL.

Consumer Data Ingestion System - [GitHub](#), [Postman](#).

Full-stack system designed to ingest and query large consumer datasets.

- Built scalable APIs with filtering and offset pagination for large data queries.
- Designed backend architecture for efficient ingestion and retrieval pipelines.

Tech-Stack: Python, Django, PostgreSQL (Railway), Render, Postman, Git.

Fabhands — [LiveDemo](#).

Link-in-bio & Booking Platform for a Freelance Artist

- Designed and built a streamlined link-in-bio site with integrated booking and digital brochure for a real freelance makeup artist.
- Reduced repetitive price and booking enquiries by centralising all client touchpoints in one place.

Education

Lagos State University — B.Sc. in Business Administration
Lagos State, Nigeria | Expected 2028

Certification

Henley Business School — Business Management Certificate
Greenlands, United Kingdom | Completed May 2025
